It is stated that one of the bakers had accident-ally burned some of the crackers while baking, and desiring to screen his apparent negligence carried them to the stable and put them in a barrel, telling the hostler that he might give them to the horses. It so happened that some of the crackers were burning, and in a short time set fire to the others, making a great smoke and causing considerable excitement. The constderation of the case of Rev. J. . Russell, late of the Protestant Methodist Church, who is applying for connection with this Conference, and about whose legal ordination there is evidence lacking, was resumed. There were no documents presented to show that he had been duly ordained, while it was alleged that if he was ordained it was after the dissolution of the Protestant Methodist Church in Virginia, and by a number of the members who did not act with the majority of the Church. After a great deal of discussion the subject was indefinitely postponed.

AN APPEAL. A number of voluminous papers in the form of an appeal of R. S. Brock, of Gordonsville, from the acts of Rev. John T. Moore, as approved by rulings of Rev. J E. Procter, presiding elder, at Quarterly Conference. It appeared that Mr. Brock had been expelled from his church. He then appealed to the Quarterly Conference for reinstatement, and his appeal was overruled. Then he came to the Annual Conference. The questions were chiefly technical ones relating to Church government. Rev. Paul Whitehead moved, in order to dispose of the matter formally, that the vote by which Mr. Proctor's character was passed be reconsidered, and that Mr. Brock's documents be referred to a committee of three. Mr. Langhorne was born in Warwick county, and died in Richmond, February 3, 1876, in the sixty-seventh year of his age. He was forty-six years in the ministry. Concerning Medical Charity.

Editors of the Dispatch: Several letters discussing the medical charity of the city of Richmond have already appeared in your columns. Still, it seems to me more might be said in opposition to the scheme of estabraise the necessary amount to pay the fine, lishing another free dispensary, as has been proposed to the Council. The necessity or expediency of such an establishment will not be so apparent as the letters signed "T." and "L." endeavor to show when the following facts are presented to the pub-

> 1. The poor are visited, through charity city, and in this way a large majority of them are reached. The busiest doctor will not refuse to prescribe gratuitously at his 2. There are a number of young doctors

as skilful as the authors of the new dispensary scheme now sitting idly in their offices who would gladly do this charity practice SUPREME COURT OF APPEALS .- Fairfax vs. if they were called on merely for the sake 3. The churches do a great deal of good

among the sick poor. 4. There are four city dispensaries where prescriptions marked "Indigent" will be filled for ten cents; and if the sick cannot pay ten cents for a prescription they cannot

live outside of the almshouse. 5. There is already a dispensary at the Medical College where free medicines are furnished to all who need it, and will apply for it. This is supported by the city, and has the advantage of the advice of the best medical gentlemen in the city as its consulting staff. These gentlemen are conveniently on hand every day.

6. The almshouse will supply the needs of all indigent persons where other charity is necessary. In the letter signed "L." it was stated rally. that 11 per cent. of the poor people who die Cabells vs. Puryear et als. Fully argued in Richmond died totally without medical homes, where the dispensary physician does not propose to visit them; but, in the first Hord's administrator vs. Colbert et als. place, I do not believe that these statistics Partly argued by Judge Meredith, and con- are acurately made up; and secondly, there is no necessity for such a state of things, for the indigent sick, whether citizens or CHANCERY COURT OF RICHMOND, TUES- "tramps," if they are truly needy, can aland conveyed to the hospital, where every Grant's guardian vs. Grant, &c. Thus it will be seen that our city is not niggardly in its medical charities; nor do the poor suffer necessarily for the want of the others either do not claim this charity, established. I have heard, through some Garland Hooper, charged with stealing medical gentlemen of the city, that the dispensary system has already been tried in Richmond, but had to be abandoned. Of those who die for need of a physician, very walk there. If any poor sick persons need relief in the city it should be given to those

In this letter my aim has been to avoid as far as possible any personal allusions that might be unpleasant. I am sorry the gentlemen who are advocating the scheme have not seen fit to adopt a similar course. Medical etiquette is founded upon the general T. K. LYON'S CASE IN THE HUSTINGS COURT | principles of right and wrong which govern gentlemen in other departments of life; and a careful observance of these principles, however irksome in particular instances, is dreadfully the arch-manœuverer, who longs and strives to escape from its influence to THE DEATH LIST .- Whole number of promote his secret ambition and his own
